PROFILE

I'm creative UI/UX designer with a good skill to learn things quickly. I'm skilled with important design tools like Figma, Adobe Photo shop, and Adobe Illustrator, which make the development and prototype processes go more smoothly.

I am eager to to apply my skills in a position to make valuable contributions as a designer-developer.

SKILLS

- Adobe photoshop
- Figma
- Adobe illustrator
- Framer

PROJECTS

DoWell Newsletter

08/2024 – 10/2024

Designed a responsive web interface for DoWell Newsletter, a platform providing curated news and articles on various topics including climate initiatives, technology, social issues, and more. The platform allows users to stay informed by exploring recent news, trending stories, and popular topics, with options to subscribe and manage their subscription preferences.

T-Chat

05/2023 – 07/2023

Developed a user interface for **T-Chat**, a chatbot configuration dashboard that allows users to customize chatbot behavior and settings. The dashboard includes templates for greeting, farewell, pause, and various response intents, as well as settings for configuring response limits, emergency contacts, and periodic service monitoring.

CERTIFICATES

Mesob School of Art — Studied UI and graphic design at Mesob School of Art, gaining a solid foundation in visual design principles, user interface aesthetics, and digital design tools. Focused on creating intuitive, visually engaging interfaces and graphics that enhance user experience
